VOL. XXIX. NO. 10. BRISTOL, BUCKS COUNTY, PA., THURSDAY, OCTOBER 17, 1901. PRICE THREE CENTS

S. P. Dunham & Co., Trenton, N. J.

Our 19th Anniversary Sale and Celebration.

ERE this reaches you, we will have made ready to tender you a royal reception when you come. It isn't to be merely a spectacular show, merely pleasing surroundings, that will be taken as a matter of course, but it will be an interesting display and sale of dry goods and merchandise that for qualities and varieties haven't been equalled heretofore by this old store in its many, many long years of experience in serving our thousands of patrons who gather here daily, from a half dozen counties.

You know the old established custom of the store, regarding its anniversary celebrations; you have no doubt visited them time and time again; well, we have done our utmost to make this as far ahead of the last celebration in interesting displays of merchandise as this store is ahead of earlier or pioneer days of store keeping.

And with the season's greetings, we extend to you a hearty welcome to be with us every day you can during the seven days beginning Thursday, October 17, and ending Thursday, October 24th.

News of the County

Special Correspondence from Near-by Towns

DOYLESTOWN.

The Daughters of Liberty presented the public school with a handsome flag on Saturday evening. Hon. Robert M. Yardley accepted the flag in behalf of the schools in a brief speech. The presentation marked the fourth anniversary of the society.

A piece of silk, 12x18 inches, on which is printed the delaration of the Anti-Slavery Convention held in Philadelphia in 1830, and containing the names of sixty prominent participants in the convention, has been presented to the Historical Society by Mrs. Elizabeth C. P. Miller, of Yardley. It was found in an old abandoned house.

At a meeting of the County Commissioners on Monday a communication was received from John C. Maule, of Bristol, setting forth that the trolley bridge at Croydon is in need of a coat of paint. As it is the duty of the trolley company to keep the structure in repair, the matter will be referred to them. The other business transacted was of routine character.

County Commissioner Edmund Wright, of Morrisville, met with an accident on Monday that will lay him up for some time. He slipped and fell on the pavement on Court street near Pine and sustained a fracture of the left leg near the ankle. He was removed to the home of his son, Jailor Arthur C. Wright. Commissioner Wright was attending a meeting of the Board on Monday.

One of the pleasant social events of the past week was a euchre given by Mrs. Robert M. Yardley on Thursday evening at her home on Court street. A large number of guests spent a delightful evening in contesting for the prizes, which were won by Miss Helen James, Miss Brooksie Gentry, Irvin M. James and Joseph W. Shelly, Esq. The rooms were beautifully decorated with roses and carnations.

Local sportsmen were out early Tuesday morning and the poor squirrels were made to suffer. In every woods where these interesting creatures harbor resounded the reports of guns. A far more interesting pastime would be to hunt them with a field glass that their habits might be observed, but the sportsman will not view the matter in that light. In this connection it may be said that blanks for licenses of non-resident gunners in accordance with an Act of April 24, 1901, have been received at the County Treasurer's office. Any person coming into this State on a gunning trip is compelled to procure a license or suffer the penalty provided in the Act. Each applicant is required to give his name, residence, height, color of hair, color of eyes, complexion, etc. William E. Wugg, of Lambertville, Superintendent of the William Mann Paper Company, was the first non-resident to procure a license in this county. It was issued by Deputy Treasurer Henry Fell. The fee for gunning and hunting in the State is $10. The fine for the violation of this Act is $25. The Act does not pretend to authorize hunting or shooting upon lands within the State contrary to the wishes of the owners thereof.

Considering the political rancor that exists in other parts of the State and the contiguity of Philadelphia, where things are red hot, Bucks county may be said to be having a campaign conspicuous for its quiet and undemonstrative character. In fact this atmosphere of peace and quiet prevails generally and is not confined to any party or faction. It is a pretty strong indication that there will not be such a terrible slashing of tickets as has been predicted. There may be a stay-at-home vote, but this is something the party workers desire to guard against. They would like a little more enthusiasm, which may be forthcoming in a few days. In Doylestown the feeling is growing that it would be wise for Republicans to vote straight this year. The recent serious charges made by reform papers in Philadelphia concerning each other, and the publication of the grave charges made by conspicuous reform leaders, to-wit: Messrs. Gordon and McClure, are having their effect, and conservative Republicans who first inclined to the reform movement are beginning to suspect that there is a deal of hypocrisy back of it all. They believe it is possible to go from bad to worse, and they prefer the regular organization to those who would traffic in the name of reform. So far as the county ticket is concerned, not a word has been said against the Republican candidates. Democrats can find no ammunition for this occasion. It is also impossible to attack justly the party upon its record in this county. There has been a clean and economical administration of its affairs under Republican office holders. The high standing of the candidates and the party's record make the ticket invulnerable and it should receive a large majority.

A great deal of interest is felt concerning the vote Judge Yerkes will receive in his home county. He has been treated by the utmost consideration by the Republican papers of the county and publicly, at least, his campaign has not been obstructed in the slightest degree. Some people profess to believe that Judge Yerkes will receive the votes of his friends and opponents on the ground that the former will desire his advancement while the latter hope to see him succeeded on January 1 by a Republican Judge. There is little reason in this sort of theory. The opponents of Judge Yerkes do not believe he will be elected and they will not vote for him, and it may safely be assumed that he is not counting on their support. Moreover the result in Bucks would not determine the matter. Therefore, setting aside the suggestion that Judge Yerkes' opponents will vote "to get rid of him," as it is expressed, the thing to figure on is, how many Republicans will support him and how many Democrats will cut him. And that is a conundrum the Judge, himself, would no doubt like to solve. So far any attempts at exact figures are merely conjecture, but the weight of opinion inclines to the belief that he will run behind his ticket. Speaking of Judge Yerkes recalls the fact that the office he occupies is the only one in the county held by a Democrat and that his term will expire ere long. In view of this it is good politics to keep the "Row" solidly Republican, and the members of the party should recognize the necessity of getting out the full vote in the coming election. It is not too soon to consider this with regard to its influence a year or two hence.

Whisky Medicines.

The temperance press is emphasizing the danger to the home in the use of "medicines" which are loaded with whisky or alcohol. In this respect, as well as in the remarkable character of their cures, Dr. Pierce's medicines differ from other preparations. Dr. Pierce's Golden Medical Discovery and "Favorite Prescription" contain no alcohol, whisky or other intoxicant, and are equally free from opium, cocaine and other narcotics. Every family should have a copy of the People's Common Sense Medical Adviser, sent absolutely free, on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Putnam Fadeless Dyes do not stain the hands or spot the kettle. Sold by Serrill Douglass and John K. Young.

TULLYTOWN.

Messrs. John and Adam Ulrick were the guests of their father Martin Ulrick, last Sunday.

Miss Annie Reese and Miss Lanahan of Philadelphia have been the guests of Mr. and Mrs. Martin Ulrick, during the past week.

The revival services at the Christian Church will be continued during the present week. The members and friends of the church have taken great interest in these meetings and the attendance has been generally good.

Quite a large number of Tullytowners visited the Mount Holly Fair last Thursday. All were pleased with the exhibits and the trotting races were generally conceded to have been more interesting than those of the Trenton Fair.

Mr. Ulrick, has now in his field an immense crop of pumpkins, which he hardly knows what to do with. The corn has already been cut and the fields seem now almost covered with the yellow pumpkins. It is a sight well worth going out to the farm to see.

Ketoowah Tribe, Improved Order of Red Men, will celebrate the twelfth anniversary of its organization on Saturday evening, the twenty-sixth instant. Among the features of the celebration will be a grand street parade in which many visiting tribes will participate, together with the local organization. The great chiefs of the order have been invited to attend and special exercises will be held in the hall for the benefit of the visitors from other tribes.

The fall campaign, thus far, has been very quiet. The indications are that the usual Republican vote will be polled for the whole ticket, although there does not seem to be a great deal of enthusiasm displayed on the part of the adherents of either the Republican or Democratic parties. Mr. Knight, the Republican candidate for County Treasurer, is favorably known here, and his election is generally conceded by Republicans and Democrats alike. His friends must see to it, however, that he polls the full party vote.

While Tullytown has often participated in the exhibits at the Trenton Fair, the prizes received have generally been for vegetable or other numerous exhibits. This year Tullytown received two second prizes in the live stock exhibit. Martin Ulrick, the owner of the stock, is justly proud of the showing made. One of the prizes was for an exhibit of six Jersey-Red pigs, and the other for a two year old Guernsey bull. This animal is registered. Its name is Dounacoud, sired by Peterboro from Lodora. Friends of Mr. Ulrick have been profuse in their congratulations at his success in bringing the two prizes here.

FALLSINGTON.

Miss Bertha Leak, of Sellsboro, Ill., has been visiting friends in this place.

Charles Carver has just had his residence renovated by a coat of paint.

Mrs. Jane Chace, wife of former Senator Chace, of Rhode Island, is visiting relatives in this vicinity.

Mrs. Elizabeth Haines has returned from a weeks visit to Moorestown, Collingsdale and Cynwyd.

Members of the L. T. L. are preparing to attend the county convention at Richboro on Saturday, the 26th inst.

Mr. and Mrs. Gray Ogle, and daughter, of Wilmington, Delaware, who were guests of Mr. and Mrs. Evan Saylor for several days, have returned to their home.

Miss Mary Gillingham and Miss Eliza Hance will go to Philadelphia next week for the purpose of making the semi-annual purchase of books for the Fallsington Library.

F. M. Gress, of this place, agent for the Star Incubator, is now sales agent in this part of the county for Wilson Brothers' grinding mills, and the Sharples Cream Separator.

A house belonging to the Pennsylvania railroad, located along the canal, south of the West Morrisville freight yards, occupied by Tom Newman, was burned to the ground on Wednesday night of last week.

Rain interfered seriously with "Rally Day" at the Methodist Episcopal Sunday School, last Sunday afternoon, as Rev. Randall and some singers were unable to come. The room was handsomely decorated with flowers, dahlias predominating. There were hundreds of the latter flowers used and the effect was very pretty.

The W. C. T. U. meeting, at the residence of Mr. and Mrs. Charles Carver, on Saturday night, was devoted to discussions on "Country Unions" and reading of articles pertaining to the late President McKinley. The memorial speech delivered by him at Buffalo the day prior to his shooting was read as also was a poem by Ella Wheeler Wilcox. The next meeting will be a "Mothers' Meeting" and will be held at the residence of Mr. and Mrs. David Satterthwaite, Jr.

On Wednesday evening of last week, while looking out of the cab window of an engine on which he was fireman, while this side of Morrisville, Fireman Addison Schenck, of Columbia, was caught by a car passing on another track and was dragged bodily from the engine. Strange to say he escaped serious injury, having saved himself by catching the running board. He was cut by the broken glass of the window and Dr. Richards, of this place was sent for. He dressed the man's injuries and sent him home.

LOWER BENSALEM.

Wedding bells will soon ring in Eddington.

A new house is about to be built in Bridgewater.

The teachers of the Public Schools held their regular meeting, Friday afternoon in the Eddington schoolhouse.

The Vanderbilt coaching party passed by way of the pike, on its trip to and from Philadelphia, Wednesday afternoon of last week.

Miss Ella Stroup, of the "Medico-Chirurgical," has been spending a few days at the home of her parents, Dr. and Mrs. G. H. Stroup.

A House Social and Entertainment will be given by class No. 2 of the Cornwells M. E. Sunday School, Saturday evening, October 26, at the home of Mrs. C. W. Hibbs, Cornwells.

Sunday School rally of the Eddington Presbyterian Church, was held Wednesday evening of last week. The exercises were in the church and of a pleasing character, consisting of recitations by Master Isaac Jones, Misses Isabella Jones, Margaret Lorimer, Elsie Peaker, chorus by members of the infant class, solo by Miss Lizzie Lorimer, duet by Miss Gertrude Paist and Mr. Polk. Mr. Howard, of Philadelphia, made the address. The school sang several hymns and Rev. Mr. Benedict, of Christ Church, Eddington, pronounced the benediction. A general invitation was given by the superintendent, Mr. T. B. Simons, to adjourn to the lecture-room, which was artistically decorated with the fruits and vegetables of autumn. Ice-cream, cake and lemonade were served to the scholars and friends.

WEST BRISTOL TOWNSHIP.

Miss Ina Winder is visiting friends in Frankford.

Mrs. Henry Barton, of Bristol, was visiting Miss Mary Sinclair last week.

Friends from Philadelphia were visiting Miss Pauline Synlobb on Sunday.

George Williams spent Sunday evening a the residence of Mr. and Mrs. Thomas Elberson.

Mr. and Mrs. George Crist spent Sunday at their summer residence along the Delaware.

Rudolph Loewidt was the guest at the residence of Mr. and Mrs. Charles Singulaub on Sunday.

Mrs. Joseph Vandegrift, of Bridgewator, was visiting Mrs. Amos R. Allen on Friday of last week.

George Zimmermann and Rudolph E. Loewidt, of Philadelphia, spent Sunday with Edward Winder, Jr.

Mr. and Mrs. Thomas Duffield will shortly close their summer cottage and retire to Philadelphia for the winter.

Mrs. Rachel Frost, of Philadelphia, spent last Thursday with her grand parents Mr. and Mrs. Edmund Sinclair.

Mr. and Mrs. Frederick A. Merbitz have returned to the city after spending a delightful summer at "China Hall."

Mrs. Clarence Borden, of Germantown, was the guest of Mr. and Mrs. Jasper Lorimer at their residence "McKee City," last week.

Charles Russell Lorimer has returned home after an extended trip to Philadelphia. He was heartily welcomed by his many friends.

Alexander Christy is having built by Robert B. Sanderson a large pen for the winter housing of his sheep. Mr. Christy's flock consist of one hundred and fourteen sheep and is considered the finest in this township.

The horse and buggy that was found by Abe Snyder, on Sunday morning, September 28th, will be shortly turned over to Town Clerk Savacool, who will have it advertised. This horse hitched to a buggy was found in the meadow on the farm of Alexander Christy. The horse had its bridle broken and a small white dog with red ears was under the seat. As the rig has not yet been claimed it is supposed it was stolen and driven to this place where the thieves made good their escape.

The "Volunteer Yacht Club" held its closing exercises at Randall Park, near China wharf, on last Sunday. This club formerly occupied the Sherwood Grove tenant house, but owing to their intemperate habits and boisterous behavior at the expiration of their lease were warned out by Mr. Jones who had the welfare of the neighborhood at heart as well as respect for himself. The residents of West Bristol Township admire his courage and if we had a few more like him it would be of inestimable value to the neighborhood.

A party of about twenty-five prominent men of Philadelphia, came up to this vicinity on Saturday night on purpose of going chestnut hunting early Sunday morning. But owing to the rain that set in they all changed their minds except one. Rudolph Loewidt, who is a fruit and produce commission merchant, had made a bet with one of his customers that he would bring back a quart of nice chestnuts. He rose with the lark on Sunday morning and in company with Miss Emilie Winder and with a twenty pound flour bag and a dozen clubs started out to seek his fortune in chestnuts. Mr. Winder after hearing the young man's story gave him permission to go in his woods. Heedless of the pouring rain he threw his clubs far and wide, until at last he got the quart of chestnuts. Drenched with rain but satisfied that he kept his word, he shook the mud of Mr. Winder's meadows from his feet and turning said to the trees, "Ta, Ta, I call and see you later."

"I had long suffered from indigestion," writes G. A. LeDeis, Cedar City., Mo. "Like others I tried many preparations but never found anything that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similary I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he used Kodol Dyspepsia Cure indigestion had made him a total wreck. J. Edward Wright, Central Pharmacy, 303 Mill st.

MORRISVILLE.

The Bucks County Christian Endeavor Union held is annual meeting in the Morrisville Presbyterian Church on Friday afternoon and evening.

The afternoon session opened with singing and the devotional exercises were conducted by Rev. John E. Revor. William Burgess delivered the address of welcome, which was responded to by the President, Dr. J. B. Heritage, of Langhorne.

G. C. Horter, Superintendent of Junior Christian Endeavor work in New Jersey, delivered an entertaining address on the work of the Juniors. Local reports were then given, and a representative of each society suggested a way in which the organization might be improved.

The "question hour session" opened with prayer by Rev. O. J. Randall, of Yardley. Rev. J. B. Randall, of Mifflintown, gave a practical talk on the quiet hour, which impressed the whole audience.

A delightful supper was served in the Sunday school room of the church, to the many guests present, and at about 6 o'clock the Executive Committee met at a private residence nearby for the purpose of electing officers and transacting other business. The following officers were chosen to serve for the ensuing year: President, Rev. O. J. Randall, of Yardley; Vice President, Henry Orr, Perkasie; Corresponding Secretary, Mrs. T. M. Gruger, Langhorne; Recording Secretary, Miss Clare Connor, Langhorne; Superintendent of Committee on Christian Citizenship, Rev. T. J. Elms, Newtown; Chairman of Lookout Committee, Dr. J. B. Heritage, Langhorne; Superintendent of Mission Work, Rev. J. Allen, Carversville; Chairman of Press Committee, C. D. Hotchkiss, Doylestown.

The evening session opened with a song service. The devotional service was led by A. S. Pittinger, of Trenton, at the conclusion of which the convenion business was transacted. The minutes of the Secretary of the Executive Committee were read and approved, and the newly elected officers were then installed.

Miss E. Lambert, of Morrisville, sang a solo, and William Turner delivered an able address. Mr. Turner spoke principally on Christian Endeavor work, and his talk was practical, his comparisons fine and his illustrations good.

A hymn was then sung and a consecration service held, each Society present responding to the roll call in a body by rising and either repeating a selection of Scripture or singing a portion of a hymn. The meeting adjourned by repeating Mizpah benediction. The convention will be held at Chalfont in 1902.

Active operations have commenced on the railroad improvements here after the temporary delay caused by the officials of Falls township holding them up where they cross the old turnpike. Derricks have been erected on the old tail ground and stone is being unloaded and stored there for the new bridge. A number of out residents have secured positions on the work. A large number of foreigners are expected and in a couple of weeks at least two thousand men will be engaged in the work.

The dance held in Mershon's Hall last Friday evening was largely attended. This was the first of the weekly dances that will be given during the winter months. Good music has been provided for the coming Friday evening and a large gathering is expected.

The old quarry on Edge Hill which has been idle for the last few years is now being operated. The stone is being used to macadam the streets on the new Land Association's property.

The employees of the Bell Telephone Company have been leisurely engaged the past week stringing the wire and installing new phones in many residences here.

Mr. and Mrs. George Lindall and daughter Eva, of Windsor, were visiting Mr. and Mrs. James Rochill for a few days this week.

Dr. Silvers and wife and Milton Robbins and wife of Windsor were the guests of Mr. and Mrs. James Rochill, last week.

Mrs. George Patterson who has been visiting her brother George Anderson has returned to her home at Freeport, L. I.

Thomas McGarry the newsdealer has returned from an extended visit to friends in New York and Long Branch.

Miss Alice B. Carn, of Fort Washington, was the guest of Mrs. Lizzie Howell a few days last week.

Charles H. Humphreys and wife and Miss Emma Heritage have returned from the Pan-American.

The roof of the old covered bridge across the Delaware, at Yardley, will be raised about four feet to enable high loads of hay to cross over.

Argument on an appeal from Common Pleas Court, No. 3, of Philadelphia, in the matter of the Tax Board "Ripper" law, was heard yesterday by the Supreme Court in Pittsburg.

Harman Yerkes has been nominated for the New Jersey Assembly on the Prohibition ticket. It is hardly necessary to state that there are apparently two Harman Yerkeses in this neck of the woods.

Former Judge Gordon (now reformer) declares that Justice Potter told his friend Governor Stone of the decision reached by the Supreme Court. When Gordon was on the bench Alex. McClure, (also reformer,) declared Gordon was a knave and a rogue.

The Union Party in Philadelphia has abandoned all hope of electing its municipal ticket. The effort will now be directed to polling as large a vote as possible. If the vote is of sufficient proportions to warrant another campaign a later ticket will be placed in the field to oppose the Republican organization candidate for Mayor. Weavers election for District Attorney is predicted by 35,000 majority.

The Jenkintown Times-Chronicle, which has a reputation for truth telling, says that Judge Yerkes, during his second term has developed the attributes of a czar. He has assumed to regulate and manage men and affairs in his own county as only a despotic ruler would do. He has commanded grand juries to do his biddings as no other judge in these days is known to do. He has gone far out of his way to exert his power, and has lost the esteem of many of the best people of Bucks county.

Oscar P. Chamberlain, of Tullytown, is wending his way to the front as a candidate for the Assembly. Mr Chamberlain's friends, who have his campaign in charge, are enthusiastic over the outlook and a majority of the lower end delegates are already claimed in his behalf. Mr. Chamberlain is a candidate who can be conscientiously supported by all Republicans. If given credentials by the convention it may be depended upon that in the Assembly halls Mr. Chamberlain will represent the best interests of the county and the party.

E. A. Coray, now fills a substitute position on the hybrid ticket which Messrs. Wanamaker, Van Valkenburg, Gordon and Guffy have put in the field with which to whip the candidates of the Republican party. Coray is a young man with a lusty pair of lungs and gained what notoriety he has attained by remaining on his feet during the sessions of the Legislature and sounding his vocal chords upon every conceivable occasion. Mr. Coray is without doubt a respectable young man, just the same as thousands of others that are passed daily upon the streets.

It has not taken the Doylestown Democrat long to pull in its soft horns. After the adjournment of the late Democratic convention the esteemed Democrat rose in its impotent wrath and demanded to know by what right Philadelphia fusionists dared to interfere with plans as laid down by the convention. Since Messrs. Gordon, Patterson and other fusionists apparently have the upper hand in the Democratic organizations the Democrat has crawled under cover and now says that the "opponents of fusion are those Democrats who are ignorant of the true situation." It is unfair in our Doylestown contemporary to allow members of the party to remain in a benighted state. If only those who are ignorant of the true situation are opposed to fusion, the Democrat should proceed to shed some of its effulgent rays, and if they are of the same candle power as illumined the Democrat, probably there would be no opponents whatever to fusion.

There is a practical lesson in the coaching run made by Messrs. Vanderbilt and Hyde to Philadelphia and return. Although they failed to make the schedule time they had arbitrarily laid down they broke all coaching records between the two cities and doubtless would have fully achieved what they aimed at but for the wretched condition of the roads for a stretch of some fifteen miles between Tenton and Torresdale, in which the wheels sank almost to the hubs and the horses were fetlock deep in the soil.

It is a shame that this ninety miles' drive between New York and Philadelphia should be made practically impassable by this one stretch of unspeakably bad road says the New York Herald. There is probably no civilized country in the world in which the roads are so poor as in the United States. In ancient days the Roman camp required the Roman road, and these still endure, although they have been improved by modern engineering. Twenty-nine military roads, having a length of 53,000 miles, centered in old Rome, and ancient Peru and Mexico had good roads, which have since perished. In the Middle Ages roads were neglected, the system was introduced which prevailed in this country in the early days of giving the turnpikes to private companies, which were expected to keep them in repair, and in return were permitted to erect toll gates. This system yielded notoriously poor results, and scarcely better ones have attended the system that now so widely prevails of intrusting the care of roads to farmers, who work out their "road tax" under the supervision of a town official in so slovenly and unscientific a manner that their time and labor are wasted.

IN THE LOCAL FIELD.

The campaign in Bucks county is proceeding very quietly and although the election is but a few weeks off there has been no attempt made to arouse the voters. The chief reason for the apparent lethargy is the confidence on the part of the Republicans in the election of the ticket. The local Democratic party has neither head nor tail and is not expected to make much of a movement, and the candidates of that organization evidently realize the improbability of a successful contest and are therefore saving themselves from an expenditure of either time or money in prosecuting a hopeless campaign.

The Republican county ticket is an unusually strong one. Charles G. Knight, the candidate for treasurer, is one of the solid men of Northampton township. He is a justice of the peace and for several terms was a school director. He is one of the directors of the Newtown National Bank.

Harvey D. Tellman, for Register of Wills, William H. Kunsman, for Coroner, Samuel J. Penrose, for Overseer of the Poor, and Harry Shelly, for Surveyor are all business men of ability who bear the best of reputations in their districts.

The convention which nominated these candidates acted wisely, and there should be a rousing endorsement at the polls. There should be no "off" years in political campaigns. The very year which is supposed to be an "off" one is the one that is often of the most vital interest.

The borough, township and county elections are the ones that directly effect the individual voters. There should be no apathy. The highest privilege of citizenship is the right of suffrage, and the right should be exercised not only in National or important state campaigns, but at every election.

THE STATE CAMPAIGN.

Since the Republicans came into power in Pennsylvania they have paid off about forty millions of Democratic debt besides all of the added cost of the civil war. Pratically the State has no debt at this time, the half million of debt remaining, having ten years to run, not being purchasable except at a heavy premium, so heavy that wise finance does not admit of the purchase in anticipation. The small debt outstanding consists of 4 per cents. During the period of Republican management the taxation of real estate and its appurtenances for State purposes has been abolished, and the revenues are now, and for many years have been, derived from corporations, to the extent of about three quarters of the whole. To secure this revenue we tax money at interest, gross receipts of corporations, bank stock, collateral inheritances, charters, loans of corporations, and premiums. We likewise receive commissions and fees, and licenses From these sorces we receive a revenue of more than sixteen millions every year.

Of this revenue a considerable part is returned to the counties. Between two and three millions of the tax on money at interest and six millions of school moneys, together with a considerable sum derived from excise taxes, is returned to the counties and is disbursed by the county authorities. We annually appropriate nearly five millions to the maintenance of hospitals and reformatories and penitentiaries. The schools for soldiers' orphans receive $200,000 and $120,000 is paid county superintendents as salaries. The Judiciary costs $700,000 and $400,000 is appropriated to the maintenance of the National Guard.

As no money can be paid out of the Treasury except as appropriated, and as for every dollar paid out the State Treasurer must have a voucher in settlement of his accounts it is plain enough to a business man that the charges of wholesale robbery made by our opponents can, or cannot, be substantiated. To substantiate those charges it will be necessary for those who make them to show that public moneys have been paid out without an appropriation, or that legal vouchers for payments are not on file at the Treasury. Such charges have been made in the past, but nobody has ever shown that they have the slightest foundation in fact. We must therefore set aside such charges as recklessly made for political effect. The effect will depend upon the willingness of intelligent voters to accept them without proof. The fact is that the business of the Treasury is open to any citizen who may wish to cast his vote intelligently. The expectation of these reckless accusors is that the people will take their statements as fact.

The Republicans have been devoted to debt-paying and not to debt creating, which makes a world of difference. They have paid the Democratic debt, they have built hospitals and maintain them generously. They have built reformatory institutions, and they have increased the appropriations for schools twelve fold. If that is robbery make the most of it, says the Wellsboro Agitator.

The Seed of Greatness.

Wycombe Herald.

At a certain period of his life the average ambitious American boy, if he does not want to be an Indian hunter would like to get a job as pirate or a policeman. That these impulses towards gore, loot and arbitrary power, however, do not seriously affect him is quite evident from the early age at which many of our leading men have started on their brilliant careers. A late article dealing with this subject thus mentions that all the members of the McKinley cabinet started from comparatively humble beginnings. Secretary Hay was clerk to Lincoln; Root taught school; Griggs was a law clerk; Hitchcock clerk in a store; Gage at 15 was a bank clerk; Smith was a compositor in early life; Long did chores on a farm, and Wilson at 20 was a farm hand.

Now that the editor of the Wycombe Herald has a new press (?) some improvement may be looked for in that interesting little journal. The Herald is a good local paper, and with a patronage constantly increasing it would not be surprising if the youthful benedict editor should enlarge his form or issue a supplement to meet his requirements by another season.

Yerkes Never Was Popular.

Conshohocken Recorder.

There is very little enthusiasm among the Democrats of Conshohocken for their ticket. Judge Yerkes never was popular here, owing to his kicking over the traces in the Bryan campaign, and the substitution of Coray for Palm is not causing much cheering among the straightouts.

A bread, cake and pie sale will be held by classes No. 37 and 42 of the M. E. Sunday School. Mrs. Bunting and Mrs. Vanzant teachers—on Saturday, October 19th, at 557 Bath street, next to Young's drug store, commencing at 11 o'clock.

The fusion movement has developed into a Kilkenny cat fight in Philadelphia. The North American, which is the head and shoulders of the campaign, is not sustained by the respectable papers in the brutal assaults made upon men who have been elected to office by the votes of the people. The Record, which always aims to be just in its criticisms, has been forced to stigmatize the North American as a conscienceless slanderer. The eminently respectable Times also denounces the sensational paper and deplores the harm done the fusion movement by the daily flagellations which appear in the Wanamaker organ. Even the Evening Telegraph, whose editor belongs to the Wanamaker family, has become disgusted with the so-called reform movement and has declared openly for the regular Republican ticket, declaring that:

The Republican ticket, from Mr. Weaver down, is the peer of the so-called Union ticket at every point and in every respect. That being the case, the question that arises concerns the manner in which the two tickets were placed in the field, and the influences that effected their nomination. On one side of that question the Rothermel supporters talk very freely and fully, but when the other side of it is broached they are as mute as the traditional oyster. It is claimed that Mr. Weaver was made the candidate for District Attorney at the command of certain men who are styled the "bosses," but they have nothing to say when attention is called to the unquestioned fact that the whole Rothermel ticket was placed in the field at the command of a still smaller clique, and that, in order to secure for its support the discontented and disgruntled elements of both parties, it was made a thing of shreds and patches in which an attempt was made to give representation to each and all of these elements.

Beyond this feature, as the very foundation of the whole movement, lies the fact that its original and prime object was to keep in office a single person who did not succeed in securing the renomination which he sought at the hands of the alleged "bosses" of the Republican organization. His original nomination three years ago was effected through their action, but in the interval the "bosses" who made Mr. Rothermel the candidate in 1898 were overthrown, and had no power to name a candidate, unless they did so outside the organization in which they had formerly been supreme.

This task they undertook, and, in order to make even a decent showing at the polls, they proceed to organize a new party by throwing an office here and there, as already set forth, to conciliate all the elements in the community which were not in complete harmony with the Republican organization of the city. The actual issue before the people is thus based on the attempt of a defeated and discredited clique to control the office of District Attorney, and the further attempt is made to obscure and befog this paramount issue by accusing the Republican organization of the very offence of which the Rothermel following is guilty.

Base Ball.

On Saturday Bloomsdale defeated Bristol by a score of 6 to 5 in a exciting tenninning game. Bloomsdale secured 13 hits but could not get them in at the right time for runs. Thornton pitched a fine game striking out 14 men. Vandegrift pitched a good game for Bristol and in the ninth inning Snyder succeeded him. In the tenth inning amid great excitement Thornton started to steal third, Butler in trying to cut him made an overthrow and "Punch" came racing home with the winning run.

BUNTS.

Bristol vs. Bloomsdale, next Saturday, on the latter's grounds.

Thornton was trying to make a record on Saturday—14 strikes out.

Bloomsdale's hits do not come at the right time for runs, White struck out with the bases filled.

Louder and Kelly were easy marks for Thornton, each being at bat four times and each striking out four times.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

NORRISTOWN LETTER.

Norristown, Pa., Oct. 5, 1901.

Norristown being so near Philadelphia does not cut much of a figure before the world, but at the same time it has its exits and entrances, its large manufacturing establishments, its lively newspapers, and excellent public schools, and on the week commencing October 21st inst. the Teachers' Institute will be held here. It is most generally held in Norristown. It affords a week of pleasure and recreation for the teachers and jollification week for the pupils of the public schools. It may have other advantages, such as bringing some money to the hotels and the attraction and cohesive properties which the fair sex always imparts to the unfair sex, or male portion of the convocation. The public school system wisely adopted to provide free education to all classes has grown to be a vast and expensive as well as extensive corporation in our State. The managers of it seem to imitate the Insurance Companies in creating costly edifices and high salaried offices. The larger and higher in the air the buildings can be erected the more learning they are expected to contain and to be able to diffuse. The common school system contemplated a little school house in every precinct in the towns and in every conveniently located district in the rural districts. No large number of children should be huddled together; and every school room should be on the ground floor, no more children should be admitted into each school room than one teacher can carefully overlook, correct, instruct and educate. The teacher should be a person of refinement, able to speak correctly, and acquainted with every pupil and the parents. The modern idea of big buildings 3 and 4 stories high is erroneous, dangerous in case of fire or contagious disease and corrupting to the morals and speech of the children. The room should be well ventilated, not too large for the members, and separated from other buildings. Such places can be obtained in every precinct in the State at very reasonable cost. The teacher should daily at the commencement of each session, examine and correct the conversation of the students in common parlance— in all ordinary and every-day use of language. The teacher can in this way ascertain the house influences and training of the student Whenever the child says "I seen him," the teacher knows that that child must be corrected at once; and every such, or else the contamination will run through the whole school; for children are creatures of imitation. Let the teacher say it is not proper to say "I seen him. You must say I saw him; or I have seen him or I have not seen him; but it is never proper to say I have saw or I have not saw him." I always found with my children and grandchildren that as soon as they commenced to go to our public schools where hundreds congregate, we always had great trouble at home to keep them from falling into these errors picked up in the associations with promiscuous crowds of boys and girls.

Hence I say a school to be perfect must be small in numbers and must have a refined and educated teacher. The drill should be continued till the conversation of the children is reduced to the proper use of words in conversation. Children should be taught to say good morning or good evening; not to bellow hallo or solong; and to use the proper words in all daily exercises and duties. It is hard to break up bad habits. Children imitate what they hear and see. They soon learn to swear. They need no teacher in profanity. They hear it, they use it because it is generally emphatic. Now let the teacher be just as emphatic. The preceptor should constantly call the pupils into conversation, and instantly correct every error; listen to the children at play. Note their salutations, their shouts and their slang. Few books should be used; good plain, strong, easy books. And above all the school should be attractive. The best methods of teaching geography and many other studies are by singing and by maps. The object of the common school education is to furnish a complete rudimentary education in the English language and mathematics, reading and writing. After a child once learns the correct use of language in conversation, learns to write and read and make the combinations of figures we employ, the scholar will gather knowledge from books and all other sources and will soon be able to navigate without a teacher. The main point is the principal instruction as to how to speak and write correctly, using good English. One may not always be able to spell correctly; some people never learn that art in our language yet become very great orators and jurists. But in speaking and in conversation we do not stop to spell our words; we only learn how to use them with accuracy and force. When it comes to writing the student must be taught that when in doubt a dictionary must be consulted. But much reading of good books and good newspapers will soon accustom the eye to the mode of spelling in vogue among the best authors.

High schools as they are called now, may be supported for purposes of higher education. If the children have years to spend at school of course their education will be more extended, and schools for this course of proceeding will be necessary. But whatever course gives the most thorough and accurate grammar, plain history, elocution and composition, is the proper course to pursue with children who attend the common schools.

Those boys who have to work several months in the year, should not be burdend with superfluous books, and a complication of studies. This is the idea of the system. It is not a college for professors to loll in cushioned chairs and read and lecture on Latin, Greek, French and Spanish and the abstruse sciences; nor is it a work shop for boys to learn trades.

I believe the boys and girls who never had any other education than that given in the primary schools, came upon the field of action as well equipped, where they had good minds and studious habits, as any of the graduates of your high schools. And I can cite numerous authorities to sustain my view of the case.

Every man of experience will tell these children of today that all they want is a good education in the essential branches, and after that each boy must educate himself. We must read and study all our lives. The world is full of books; there is no difficulty to get an education if the boy hungers after it. There is plenty of food for his appetite. Much of the stuff taught in school is never heard of afterward, and is never applied in the duties of life. Children must understand that their school days and school books are only to lay a foundation for education. No boy can be educated at school—he can only be placed in command of such principles as will enable him to educate himself—and that will occupy his life time. Cato learned Greek at 80. Many scholars reaped their richest treasures and rewards after they had passed three score years and ten.

We have a flourishing county but we miss the agricultural fairs and the grand old boarding schools. We had four of the latter in Norristown, and they brought us hundreds of refined and elegant young ladies and gentlemen from all the States, Cuba and other foreign countries. And our fair at Norristown was the centre of attraction of the whole State and Jersey. Now we have to go off to Trenton, Allentown or Reading to see a good country fair.

The New Garrick Theatre.

The most notable event in a generation of Philadelphia's theatrical history, was the dedication of Frank Howe, Jr.'s, new Garrick Theatre on Monday evening, October 7th.

Deep public interest in the event had long been aroused by the hints that had been given of the Garrick's rare beauty. When its doors were thrown open and an audience that was thoroughly representative of Philadelphia's culture and society had assembled, it was agreed on all sides that only half the story had been told.

Richard Mansfield, the foremost of English-speaking actors, dedicated the Garrick to its high purposes by presenting for the first time on any stage, his new play, "Beaucaire." The piece is an original comedy in four acts, written by Booth Tarkington and Evalyn Groomleaf Sutherland. It is in every way a characteristic Mansfield success.

The Garrick is a perfect exposition of the art of theatre building and its paramount qualities are safety and comfort. Of all theatres in the United States, the Garrick was designed to be the safest and most comfortable. The first principle of a theatre's hold upon its patrons, is the feeling of perfect security from harm which they must enjoy. The Garrick has been constructed with that idea foremost in the minds of its manager, Frank Howe, Jr., and its builders, and is pronounced by competent authority to be absolutely fire proof.

The stage is a splendid effort of theatrical construction. From a strictly practical standpoint it contains every facility known to modern stagecraft, and every convenience that good judgment and knowledge of things theatrical can suggest. Like the floors in other parts of the house, the stage floor is boarded upon a solid foundation of brick and concrete through which the various traps and boxes are cut. The box office will be situated in the main corridor nearest the Chestnut street entrance, and it will accord in appearance and convenience with its surroundings.

The Garrick Theatre possesses the most imposing theatre entrance in the United States. It is a veritable master work of its kind. The Chestnut street entrance was designed by Willis G. Hale, an architect who has planned many of Philadelphia's famous buildings, and who in artistic creations of this character is unexcelled.

The lounging room in the main lobby is the most luxurious apartment of its kind in any theatre in the world. It represents an entirely new idea in this manner of theatre decoration. It is, in reality, a part of the main corridor, and people entering and leaving the theatre will pass through. Mere description does the beauty of this apartment but faint justice. The effect of illumination upon the rich interior is exquisite. It would be difficult to conceive a picture of richer design or of execution. The dome of the Garrick's auditorium is a deep, rich red into which is embedded a myriad of electric lamps that shed the softest light through opalescent globes. The walls are of the same color as the ceiling, and the beautiful effect of simplicity is everywhere apparent. From the balustrades of the balcony the light is shed in subdued rays from a circle of lamps which also extend across the auditorium, but which are almost embedded in carved rosettes.

Personality enters as strongly into the management of theatricals as it does in the control of a regiment. Frank Howe, Jr., who with the opening of the Garrick Theatre becomes a most influential factor in the realm of the city's high class amusements, possesses the gift to an unusual degree. A large circle of patrons concede to Mr. Howe many fine business qualities, not the least among them being his capacity for organization and all occupation. Mr. Howe has been a part of the theatrical life in Philadelphia for nearly twelve years. His methods of business soon impressed themselves upon Philadelphians, and he so well and assiduously cultivated the feelings of confidence among his patrons, that the character and standing of his dramatic and musical offerings was accepted by them from Mr. Howe's announcements. Mr. Howe, in a word, represents that class of theatrical managers who have raised the business of amusements to a dignity and standing it should possess. In no other calling are the qualities of judgment, courage and sagacity more necessary.

Ethel Barrymore in "Captain Jinks" is the second attraction of the Garrick, for an engagement beginning Monday night, October 21st. New York couldn't see enough of "Captain Jinks" last season, the play with Ethel Barrymore as Madame Trenton, the beautiful and fascinating prima dona whose love story Clyde Fitch has enveloped in a charming atmosphere of New York life thirty years ago. There is that about "Captain Jinks" which holds the approval bestowed by the public immediately upon its production. The charming love theme, the wit of Mr. Fitch's lines and the humor of his situations, the acting of Miss Barrymore, all set in a period favorable to scenic effects, the period marked in the fashion plates by the Grecian band, tremendous bustles and chignons and other absurd fashions—these elements appealed to the public's taste for diversion. Then, too, there was a cordial acknowledgement of Miss Barrymore's inherited right to be considered as an actress, and when she triumphed in the principal role, gratification was sincere and praise freely bestowed.

Julia Marlowe at the Broad Street Theatre.

Julia Marlowe's magnificent production of "When Knighthood Was in Flower" comes to the Broad street Theatre for a month beginning October 21. This will be Miss Marlowe's only engagement in Philadelphia this season—in fact, her only appearance in any Pennsylvania city, as her tour this year is more than usually brief. Aside from a month in Philadelphia, a month in Boston, and a month in Chicago Miss Marlowe will play in only six American cities during the coming fall and winter. She was released from her Philadelphia contract last spring, owing to the great success of "When Knighthood Was in Flower" at the Criterion Theatre, New York City, where she would now be save for the fact that fulfillment of previous contracts is now absolutely demanded by managers who surrendered their time last year.

Miss Marlowe's portayal of the role of Mary Tudor in Paul Kester's dramatization of Charles Major's romantic novel has proved the triumph of her career. Of all the thirty-four roles in which she has appeared, her Mary Tudor has scored the most emphatic success with the public and the critics. This is probably because it affords so wide a range for the display of Miss Marlowe's gifts, the part including moments of delicious comedy and deep emotionalism, and a costant alternation of smiles and tears. Miss Marlowe is first seen as a princess swayed by whims and impulses, next as a young woman surrendering for the first time to the dictates of her heart, and later as a true heroine willing o surrender all for the sake of her love and her lover. The play has been splendidly mounted, and the five scenes depict Windsor Park on Mayday, 1513; the Princess' apartments in Bridewell House, London: the public room of the Bow and String Inn, at Bristol: the ballroom of the Palais des Tournelles, in Paris, and the morning-room of Greenwich Palace, England. They are masterpieces of the scene painter's art. Miss Marlowe's supporting company includes players who have contributed studies of merit to the stage both in England and America.

The Up-to-Date Heroine.

Her heart dropped and her countenance fell.
She stood riveted to the spot.
Then raising her eyes with a glance swept the skies.
But she couldn't sell her sad lot.

She heaved a sigh—sad spirits load—
It fell in a deep reverie.
Then with lengthened face that grew apace,
She lapsed into memory.

Her train of thoughts—never under control,
Was wrecked in a sea of mud;
And the features fair of this maiden rare
Were clothed in a sombre mood.

All she wore was a pale, sad smile,
Though wrapt in meditation;
Then she sat by a nook in memory's book
And wiped her brow with agitation.

She was dragged along to the very last page,
Then died in her author's brain:
Don't you think she'll repent of the life she spent.
If she ever lives again. J. R.

The new postal cards to be issued under the contract recently made will bear the vignette of President McKinley. The design will be labeled as the series of 1901. The name McKinley will appear in the design under the portrait, with the date of the late President's birth and death. The words "U. S. Postal Card" will be moved along nearer the centre of the card, so as to give more room for the postmark, which has hitherto been obscured by being stamped over the printed words.

Jesse H. Knight, a prominent citizen of Hulmeville, died at his residence on Tuesday morning. The deceased had long been a sufferer from Bright's disease, but had been confined to his bed but a few days before his death. Mr. Knight was a well-known and successful business man in this community for many years. In early life he taught school in Hulmeville and other districts with marked success. He was a son of Absolem and Elizabeth Knight and was born in Middletown township in 1846. The deceased leaves a widow and daughter and a large circle of friends to mourn his loss.

Found Dead in a Chair.

James P. Henry was found dead in his carpet weaving room on Radcliffe street last Friday. About noon a travelling man went into the place and saw Henry sitting in a chair. The visitor received no reply to his salutation and closer investigation proved that Henry was dead. A doctor was summoned and it was found that death had occurred several hours before. Henry lived alone at his place of business and for years had been an asthmatic sufferer. The deceased was sixty years of age.

Oratorio Rehearsals.

The weekly rehearsals of the Oratorio "Paul the Apostle," are still being held with unabated interest. Two of the three parts viz, "Paul at Phillipi" and "Paul at Ephesus" have been gone over carefully. Both the solo and chorus work is being brought up to a high musical standard. The composer, J. E. Trowbridge, has shown his proficiency by the beautiful arrangements of quartetts (unaccompanied) that are interspersed throughout the work, one in particular, "Grace be unto you," a male quartette, will be greatly enjoyed on the evening of the musicale which will be in the near future.

A Strawride.

A very merry company of young people left Bristol Saturday evening on a strawride, bound for the home of Harry Stackhouse, of Byberry. The weather was a little unfavorable but that did not debar any of the pleasures of the evening. Those present were Mr. and Mrs. Harry T. Stackhouse, Misses Elizabeth Townsend and Minnie Roberts, of Byberry, Misses Florence, Elizabeth and Eva Wright, Laura Pope, Margeret M. Brady, May Edwards, Mabel Stetson, Bertha Snyder, Jennie and Florence Chambers, Messrs. Jesse Clark, John Strouse, Louis Worthington, John Pursell, Lawrence Nelms, Edward Braden, Harvey Hetherington, Charles Pidcock, Harry Riley and John Chambers, of Bristol.

Steamboat Line Asks Relief.

The Wilmington Steamboat Company, owner of the steamer City of Trenton, which was destroyed by an explosion in the Delaware river on August 28, has filed a petition in the United States District Court asking that it may be declared entitled to the benefits of certain acts of Congress, which will limit its liability for damages.

The company asks that all those claiming damages be made to appear in court on a certain day and make proof of their claims, and that all these claims be determined in this proceeding. The company further asks that if it be found liable at this time, its liability be limited to the amount of the value of its interest in the steamboat and her freight pending at the close of the trip, and that the money secured to be paid be divided pro rata among such claimants as may duly prove their claims before the Court.

Bucks County Bible Society Meets.

The 83rd annual meeting of the Bucks County Bible Society, was held in the Neshaminy Church, Thursday, October 10, 1901 at 10.30 o'clock. Owing to the death of the President, Dr. Charles King, Rev. Alexander Alison, D. D., of Bristol, first vice-president, presided. The devotional exercises were conducted by Rev. W. K. Preston, pastor of the church, after which, upon motion, Dr. James Morrow, secretary of the Pennsylvania Bible Society, gave a most able address on the work of the distribution of the Bible throughout the State and the printing of the Bible in the different languages so as to reach all classes of men, stating that the Bible was printed in 420 languages, while 100 years ago only in 50, thus showing what the Bible Societies had done in the last century.

The treasurer's report was made showing that the amount of receipts was $62.95 after which meting adjourned.

At 2 p. m. meeting resumed its session and Rev. J. B. Krewson was made chairman pro. tem. Appropriate resolutions were presented and adpoted on the death of the President, Dr. Charles A. King, of Andalusia.

The following officers were then elected: President, Rev. Alexander Alison, D. D., of Bristol; First vice-President, Rev. H. P. Craig of Churchville; Second Vice-President, Rev. Robert Labaree, of Doylestown; Secretary, Rev. R. H. Eastman, of Andalusia; Treasurer, Rev. D. K. Turner of Hartsville. Rev. T. J. Elms, of Newtown, will preach the annual sermon at the next meeting which will be held in the Salem Reformed Church, at Doylestown, Rev. J. R. Bergey, pastor, second Tuesday of October, 1902.

It was reported that the Society had nearly $500 worth of Bibles to their credit with the State Society and the contributions, received from churches and individuals during the year, amounted to $56.19.

Rev. J. B. Krewson of Forest Grove, was made a life member of the Society and $30 of the above appropriated for same, the surplus was donated to the State Society.

Rev. H. P. Craig, of Churchville, delivered an excellent sermon, taking for his text Psalm 19. 7: The Law of the Lord is perfect converting the Soul.

The meeting adjourned after extending a vote of thanks to Dr. Morrow and Rev. H. P. Craig for their able efforts and to the pastor and ladies of the church for their hospitality.

LOCAL MISCELLANY.

The corner-stone of the new $4,500 fire engine house now being constructed at Newtown was laid Thursday afternoon at 3 o'clock. About sevnty-five or one hundred persons witnessed the exercises, which were very interesting. Lewis R. Kenderdine, chairman ot the Building Committee of Council, prosided.

Most of the corn in this section is now cut and in shock. The yield will be above the average. Farmers, in most instances, have gathered in good second crops of hay and stubble grass. They are now devoting all their energies to picking potatoes and wheat seeding. Their work is almost continuous year in and year out.

Edwin R. Jones, a prominent resident of Newtown, met with a very painful accident on Friday afternoon while driving to his home from Richboro. The horse frightened and kicked over the dash board, striking Mr. Jones on the knee and breaking one of his knee-caps in three places. Mr. Jones has the sympathy of the entire neighborhood.

William C. Mershon, of Morrisville, has begun suit against the Wilmington Steamboat Company in Common Pleas Court No. 4, Philadelphia, to recover damages for injuries received by him while a passenger on the City of Trenton at the time of the explosion of the steamboat's boiler off Torresdale some weeks ago. Summonses were issued against the same company by Winder L. Johnson, of Bensalem township, and by Ella Johnson, of Hulmeville, widow of Harry W. Johnson, in suits growing out of the same accident.

One day, over a week ago, a gold watch belonging to Mrs. Gamble, of Newtown, a daughter of Thomas Gumpper, mysteriously disappeared from her father's house. Efforts were made in a quiet way to locate and recover the stolen propety, but without avail. On Tuesday evening about 8 o'clock the door-bell of the Gumpper mansion rang. On going to the door Mrs. Gumpper found no one there, but between the door and the screen was a package done up in manila paper. Who it was that left the package at the door no one seems to know. It doubtless was some conscience-stricken individual or a thief who feared detection if he kept the watch in his possession.—Enterprise.

The Newtown Enterprise is responsible for the following: A farmer who has been living within half a mile of Newtown for the past twenty years, saw Langhorne for the first time on Sunday last, when he passed through that borough on a trolley car bound for Langhorne station, where he took a train for Yardley to visit a sick relative. He had often heard of Langhorne, but had no idea as to how the place looked. As he rode along and viewed the grounds of the country club, old Bellevue, the handsome residences, ect., he was filled with admiration, and as the town is but a little more than four miles from his home he may go down there again in the course of a few years and make a closer inspection of the place.

Hon. Amos Briggs.

Former Judge Amos Briggs, of Tullytown, was the subject of the following sketch which appeared last week in the Philadelphia Evening Item:

Ex-Judge Briggs has had the distinction, rare in the changing kaleidoscope of public affairs, of having twice refused the office of Judge at the hands of the Republican party, and of having on one of these two occasions named the party's nominee. The incident happened in September, 1861, at a time when the Republican organization in convention assembled named Mr. Briggs as their choice for judge of the District Court of Philadelphia to succeed Judge Stroud, whose term was about to expire. Mr. Briggs, when apprised of the action of the convention, requested that body to reconvene in order that he might lay before it his reasons for declining the nomination. The convention did so, and a motion was made that Mr. Briggs' declination be accepted. The motion was promptly voted down and a committee named to ask Mr. Briggs to appear in person before the convention. Although urged to reconsider and to accept, Mr. Briggs persisted in his refusal to allow the use of his name, and in a short but pithy speech suggested to the delegates that they could not do better, in his opinion, than to renominate Judge Stroud. The convention promptly acted on the suggestion and Judge Stroud, thanks to Mr. Briggs' extraordinary magnanimity, was named his own successor.

Ex-Judge Amos Briggs was born in the Quaker settlement of Penn's Manor, in the county of Bucks, of this State, January 22, 1825. He attended the day schools of that locality until his eighteenth year, at which period he became a teacher in the school of which he had been a pupil. In August, 1846, when about twenty-one, he left the thorny paths of the pedagogue to become a student at law in the office of William R. Dickinson, which office he left in turn one year later to further pursue his studies under Theodore Cuyler, upon whose motion in October, 1848, Mr. Briggs was regularly admitted to the bar.

He continued thereafter in successful practice until 1872, at which time he was nominated and elected by the Republican party a Judge of the District Court. In January, 1875, Judge Briggs was transferred to Common Pleas, No. 4, where he served until the expiration of his term. In the Fall of 1882 Judge Briggs was renominated by the the Republican convention, but at the election which followed was defeated by Hon. Michael Arnold, the Democratic candidate.

Prior to his elevation to the judicial office Judge Briggs served with distinction as a member of Common Council, to which body he was elected in October, 1863. In Councils he was a prominent figure in debate, and notwithstanding the fact that it is against custom to appoint new members to important committee trusts, was made chairman of the responsible committee on highways. Nine months later he resigned, finding it impossible to give proper attention both to city affairs and his own private practice.

As a Judge Mr. Briggs decided in accordance with the highest traditions of his profession some of the most important litigation tried during that period. His opinions were regarded as models of lucid and fluent English.

Since his retirement from the bench Judge Briggs has been more or less actively engaged in the practice of his profession; is the master of a large and lucrative practice and is one of the most respected and public-spirited of Philadelphia's eminent citizens. He has one son, Frank, who is a well-known member of the junior bar.

Teachers' Institute Programme.

County Superintendent William H. Slotter has announced four of the local instructors who will occupy periods of the day sessions of the Bucks County Teachers' Institute, October 28th to November 1st, at Doylestown.

Miss Annie C. Scorborough, of Newtown, will give a talk on "School Literature." "Nature Studies" will be treated by Charrles T. Windle, of Southampton. Owen E. Batt, of Edgewood, will speak along the line of "Child Studies," and Miss Louise Baggs, of Bristol, will have a paper on a general reading course for children.

Dr. Joseph S. Walton, principal of the George School, will deliver the opening address on Monday afternoon. He will take as his subject "The Law of the School," Mrs. L. L. Wilson, of the Girl's Normal School, of Philadelphia, will speak on Tuesday on "Commercial Geography." In the afternoon she will speak on "Nature Study." Miss Belle Vansant, of the George School, will speak about trees at the forenoon session. Dr. W. W. Dietrich, of the Keystone Normal School, at Kutztown, will address the teachers on Thursday at both morning and afternoon sessions on some phases of hygiene in the schools.

The evening lecture course, with one exception, is now complete, as follows: Monday—F. Hokinson Smith; Tuesday—Miss Mabel Loomis Todd; Wednesday, Maro, the magician; Thursday, Hon. Alfred Taylor; Friday, Mrs. Helen Boice Hunsicker.

Fidelity Council's "House Warming."

On last Thursday evening Fidelity Council, No. 21, Jr. O. U. A. M., held a "house warming" in its new lodge room in the postoffice building. Several months ago when William E. Doron had under contemplation the erection of a new building for the postoffice, he submitted a proposition to Fidelity Council, regarding the building of a second story to be used as a lodge room and the fixing up of the basement for a bannqueting hall, which proposition was subsequently accepted and the meeting last week was to take formal possession of the new quarters. The members had been notified by postal card and a large crowd was in attendance. A short session of the council was held and at its conclusion the special exercises began. Gustav Bacharach, a prominent member of the order from Philadelphia, delivered an entertaining address. He was followed by Rev. E. E. Burriss, of Chester, whose remarks were both eloquent and inspiring. Mr. Burriss became a member of the council while stationed here as pastor of the M. E. Church and greatly endeared himself to his brethern, by his patriotism and intense love for his country. Several piano solos by Prof. DeLong, of Philadelphia, and numerous selections on a phonograph monipulated by F. T. Chambers, made up the balance of the programme. Refreshments were served at the conclusion. Just prior to adjournment an interesting statement of the financial condition of the Council was made by Doron Green. The Council was worth at last report over $10,000, most of which has been accumulated through investments in building associations. At present the holdings of the Council in the various associations aggregate eighty-three shares, which are worth over $6,000. All of these shares will mature within the next ten years and if prosperity continues to attend the Council, it will not be many years before this society will be the richest beneficial organization in Bristol. If the 83 shares are maintained until maturity, the amount derived therefrom will be $16,600 which added to the amount, $4,000 now otherwise invested will make the total worth of the Council at the end of ten years, $20,600. The new lodge room is a model of neatness and beauty, with every convenience necessary to make it attractive and popular. The room is equipped with combination gas and electric fixtures and a beautiful chandelier is suspended from the ceiling in the centre. The presiding officers chair is situated in the eastern end of the building and is elevated, resembling a throne. The ante-rooms are built at the opposite end. All the furniture is made of oak and harmonizes with the carpet which is a light ecru with flowered border. Two pianos are in the hall on trial. The basement when completed will be a fully equipped banqueting hall with kitchen complete. Two tenants for the lodge room have already been secured, one of which, now occupies the hall on Tuesday evenings. The other tenant will move in the first of the year. The low price asked for the room, one hundred dollars per year, including ice water in summer, and the gratuitous use of the lower room twice a year, together with the beautiful environments cannot help but attract tenants and make the investment a profitable one. Fidelity Council was instituted November 22, 1882, with thirty charter members. During the first five years of its existence its progress was slow but after its fifth anniversary it received a boom, since which time it has occupied a prominent place among the secret benevolent societies of Bristol. Although by thrift, economy and judicious investments this organization has amassed considerable wealth yet it has not by any means been stingy or mean. During the past fourteen years this society has presented fifteen flags to the public schools of Bristol and vicinity, besides supplying poles for three of the Bristol school houses. The schools of Bristol have also been the recipients of a handsome present of seventeen Oxford Teacher's Bibles, with flexible covers, from this society, within the past three years. A worthy appeal for aid is never ignored and the generosity of the Council is known all over the State. Now that the Council is comfortably settled in its new home its many friends wish for it a continuous season of prosperity and success.

United Labor League Opposes Judge Yerkes.

In a series of resolutions the United Labor League, of Philadelphia, has put itself on record as opposed to the candidacy of Judge Harmon Yerkes for Judge of the Supreme Court because of his action in connection with the trial of the striking street car men of 1895, and pledged itself to do all in its power to encompass his defeat at the polls.

The resolutions read as follows:

Whereas. At and during the strike of the railway employes in Philadelphia, in December, 1895, certain members of the Amalgamated Association of Street Car Men were arrested;

Whereas. The cases were called for trial before Judge Harmon Yerkes, Judge of the Bucks county courts, but then sitting in the Court of Quarter Sessions in Philadelphia county, and in the trial of these men Judge Yerkes was unnecessarily severe, and so charged the jury that the men were convicted, to the great injury of the Railroad Men's Association, and the cause of labor in general, and

Whereas. The said Judge Harmon Yerkes is now a candidate for Justice of the Supreme Court of Pennsylvania on the Democratic and Union party tickets, and his election to the said office would be injurious to the principles of this organization, and the cause of labor generally; therefore be it

Resolved. That the United Labor League of Philadelphia and vicinity oppose the election of the said Judge Harmon Yerkes to the office of Justice of the Supreme Court of Pennsylvania, and call upon all labor organizations in Pennsylvania and those who sympathize with the cause of labor by all honorable means to aid us in this laudable object.

Gun Club Banquet.

The annual banquet of the Bristol Gun Club was held at the residence of Mr. and Mrs. Harry McLaughlin, Jefferson avenue, on last Saturday evening. The table was artistically decorated with banquet lamps and flowers and a number of choice selections were played upon the piano while the banquet was in progress. The menu called for an oyster dinner and so well did Mrs. McLaughlin perform her part in its preparation, that her culinary abilities received well merited praise from all present. After the banquet the balance of the evening was spent in sociable enjoyment. Just prior to adjournment, a rising vote of thanks was tendered to Mr. and Mrs. McLaughlin for their kind hospitality.

On Saturday afternoon preceding the banquet, the club held a very interesting shoot in the field at the upper end of Garden street. Heretofore in all the matches, the conditions have been known angles, but on Saturday the conditions were changed to "unknown angles" and as a result the record made by some of the cracker-jack shots was not very creditable. Six sweepstake matches were shot, each of the contestants shooting at five bluerocks, at 20 yards rise. The scores follow:

	1st match.	2d match.	3d match.

BRISTOL CEMETERY STATISTICS.

The interment of Samuel S. Gilbert in the Bristol Cemetery on Saturday last, October 12, made one thousand bodies buried there.

The first interment was made on the 28th of July, 1882, and the five hundredth on April 4th, 1894, it taking almost twelve years for the first half and rather more than seven years for the last half. The oldest person buried was Mary Brelsford, aged 95 years, 3 months, 12 days.

The following statistics will probably prove of interest:

No. of males interred, 525; females, 475.

Basket Ball Chatter.

Fred Cooper will have entire charge of the Trenton team.

The Bristol cage has been remodelled to conform wih the new rules. Round corners have been put in and the playing surface shortened five feet.

Klein, Hough, Everingham, Mullener, Piant and Mellick, who live in Trenton are putting in hard work practicing. The Y. M. C. A. gymnasium is used.

The Philadelphia team which opens the season here next Thursday has thus far secured the signatures of Snow, Keenan, Markwardt, Kruger, E. Brennen, Dunn and Donlon.

"Sandy" Shields has been signed by Bristol, the local management having effected terms with the great forward. Shields will make his first appearance here in December.

The new rules provide against the practice of taking out time and delaying the game. Heretofore the privilege has been greatly abused, and at an important stage of the game a player would feign injury and call for time.

Hereafter reserved seat tickets will be on sale at the Auditorium three days before the date of the games. The box office will be open morning, afternoon and evenings. Seats will be reserved for any game during the month.

Manager Smith has filed a protest with President Neill and will contest Camden's right to play Deal. Smith declarse he has papers which will show that Deal belongs to Bristol, and that he paid the "Snake" advance money.

Flattering offers have been made to Manager Smith to transfer the Bristol team to Philadelphia. The offers have been refused as Mr. Smith has faith and pride in his home town, and will use every honorable means to win the 1901—92 championship and bring the pennant to Bristol.

Owing to the increased expense attached to putting a high class team in Bristol the local management has made a slight advance in the prices of admission. Reserved seats hereafter will be thirty cents instead of twenty-five. Bleachers twenty cents. Boys under fourteen years, will be admitted for fifteen cents.

George Beale has notified Secretary Austermuhl, of the National Basket Ball League, that he will not accept the appointment tendered him as one of the referees of that organization for the coming season. "It is a hard place to fill, and a thankless job at that," said Mr. Beale. "The rules are not strict enough to protect the referee from the abuse and mob violence of the spectators and players, and the managers and league officials do not support referees properly; hence, until the rules are changed or more strictly enforced, and until the referee is guaranteed protection by the league officials, I shall not serve in that capacity."

Singing Class.

Persons desiring to join the sight singing classes of Professor Walter J. Mulford, of Philadelphia, will send their names to Miss Marie A. Gilkeson, No. 211 Radcliffe street. Terms one dollar in advance for term of ten weeks. It is necessary to have 60 names before the class can open in order to meet expenses as Mr. Mulford's charges are five dollars an evening and expenses. Mr. Mulford uses the cheve method of sight singing. He is a popular teacher in Philadelphia and his classes in Bristol last winter were pleasing to his pupils and highly successful.

AMENDMENT TO THE CONSTITUTION PROPOSED TO THE CITIZENS OF THIS COMMONWEALTH FOR THEIR APPROVAL OR REJECTION BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

A JOINT RESOLUTION.

Proposing an amendment to the Constitution of the Commonwealth.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth in General Assembly met, That the following is proposed as amendments to the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth article thereof:

Amendment One to Article Eight, Section One.

Add at the end of the first paragraph of said section, after the words "shall be entitled to vote at all elections," the words "subject however to such laws requiring and regulating the registration of electors as the General Assembly may enact," so that the said section shall read as follows:

Section 1. Qualifications of Electors. Every male citizen twenty-one years of age, possessing the following qualifications, shall be entitled to vote at all elections, subject however to such laws requiring and regulating the registration of electors as the General Assembly may enact:

1. He shall have been a citizen of the United States at least one month.

2. He shall have resided in the State one year (or, having previously been a qualified elector or native born citizen of the State, he shall have removed therefrom and returned, then six months,) immediately preceding the election.

3. He shall have resided in the election district where he shall offer to vote at least two months immediately preceding the election.

4. If twenty-two years of age and upwards, he shall have paid within two years a State or county tax, which shall have been assessed at least two months and paid at least one month before the election.

Amendment Two to Article Eight, Section Seven.

Strike out from said section the words "but no elector shall be deprived of the privilege of voting by reason of his name not being registered," and add to said section the following words, "but laws regulating and requiring the registration of electors may be enacted to apply to cities only, provided that such laws be uniform for cities of the same class," so that the said section shall read as follows:

Section 7. Uniformity of Election Laws.—All laws regulating the holding of elections by the citizens or for the registration of electors shall be uniform throughout the State, but laws regulating and requiring the registration of electors may be enacted to apply to cities only, provided that such laws be uniform for cities of the same class.

It Pays to Paint.

There is nothing that adds to the selling value or the renting value of a house like good paint—there is nothing that makes home more home-like than good paint. It pays to paint. The better the paint, the better it pays. Then if you are going to paint you want the best material for it.

Fateful, glum, with misdirected legs,
You hide your history as you do your eggs
And offer us an osseous nut to crack
Much harder than the shell upon your back.
No evolutionist has ever guessed
Why your cold shoulder is within your chest,
Why you were discontented with a plan
The vertebrates accept, from fish to man.
For what environment did you provide
By pushing your internal frame outside?
How came your ribs in this abnormal place?
Inside your rubber neck to hide your face
And answer not? To science you're a sphinx,
A structural epitome of missing links,
And, when decapitated, still you swell
And kick and claw and scramble just as well.
But I'll not plague thee. Even here I find
A touch of fellowship that makes me kind.

A CONFESSION IN ARCADY.

Which Recites the Pleasure of Poaching.

By ATHOL FORBES.

"Every man as lives in the country has a hankerin' after it. It's in the nat'ral blood, I says, and when a man fairly gets the taste of it in his system, why, it's worse to leave off nor drinkin' and gamblin'. Skittles and dominoes is all very well, but poachin'—ah, that's the sport!"

The old man shook his head sagely after this bit of moralizing and knocked the ashes out of his pipe.

"Try some of mine," I said, passing him my pouch. I saw the ex-poacher was inclined to be talkative, and as time hung somewhat heavily on my hands in Arcadia I settled myself down to listen.

"How did I begin? Why, I was always at it, more or less, ever since I could remember. As a boy bird snarin' was my amusement—many's the whackin' I got for that and truant playin' from the schoolmaster. I was a dead shot at a runnin' cat at forty yards with a flint. You can practice on them in daylight. Then in the evenin's I used to knock over rabbits with a stone. Lor', I could knock 'em over tew," and he smiled as he recalled his boyish prowess and pranks.

"I remember well the first time I went out with a gun. It was with old Tompkins—'Methody Tompkins,' as we call him. He's livin' now and never got copped. It were like this: Him and me wur in service with the old squire up at Hind's farm. We was eatin' our bread and cheese, and the plump pheasants was struttin' about in and out of the wood that was by the field we was harrowin'. I 'ad never tasted one, and Billy Tompkins he says to me, 'Ever tasted one o' 'em?' 'No,' I says. He larfs. That was 'ow it 'appened.

"'There's more there than squire can eat,' says a voice inside like, and the Almighty he gave us the fowls of the air and the fishes of the sea. I 'ad never seen the sea, never 'ad no 'ankerin' after it, but I might as well have my share o' t'other things.

"Just at that time Billy says, 'I can borrow a gun.' I looks at him. 'Right, lad,' I says, for we understood each other, and that night we went out. There was no moon, but we knew our way. I war a bit narvous like, especially when some squirrels squirmed away in front of us as we got through the gap in the 'edge into the plantation. Curious things them little animals is. I've seen them many a time brushin' the dead leaves away with their tails and then turnin' around to pick up the nuts. Ah, the way of the Almighty be wonderful! Just think of him pervidin' the little beasts with brushes, as if they was Christians.

"Well, that night I was a bit skeered, and no mistake. Suddenly Billy lifts his gun. Flash! bang! it goes. I thought I should 'a' died. In a minit the whole place was alive with wings flappin' in all directions. I turns to bolt, but Billy he collars ho'd of me and says, 'Doan't be a fule; hold the bag, and mind tew do exact as I says.' Well, you never 'eard such a huproar; all the birds in the plantation wanted to know what was up and come out o' their nests to see and hear all about it. A big cock pheasant screeched in my ear, and tiny birds dashed about like mad without thinkin' where they was goin'. It was a spree, if you like.

"We bags two big birds, then we off's 'ard as we could lick, before the keeper got on our track. But we was in our cottages, snug in bed, I bet, before they 'ad their eyes open.

"Next mornin' we went to work as usual and heard all about the scare of the night before. Keepers and dogs was out, and squire suspected some pitmen from a colliery about five miles off. We listens, and we says nothin' and agrees that pitmen are a wicked lot.

"After that we got more boldlike and fearless, and two birds did not content us, for we soon saw there was money in it. Yes, many a night I 'ave made a week's wages, and I put by a tidy bit each season. Then Jim Cowles joined us, but he spent all his takin's in drinkin' at the Blue Pig. However, he put us up to sendin' the birds to Lundun, where we could get tiptop prices and no questions asked.

"One night we gets nabbed—Jim and me. Billy didn't go with us, though I 'eard afterward he was suspected, but what does the sly old dog do but goes off to a prayer meetin' t'other side o' the Dene and proves an alibi. His gal was in service at the hall, and she tells him as how special keepers and a party at the hall was goin' to hunt for the poachers, so the wily old fox he goes to his meetin' and lets us get copped without givin' us a word's warnin'. They suspected us, you see. There was a struggle, and Jim he lets off his gun, whether by accident or not I cannot say, but he struggled hard an' got away. He had a bit o' money, and he makes a clean bolt of it to Ameriky, where he is now. I hears from him occasionally. He was afraid he 'ad shot one of the keepers, and it was years before I 'ad a letter from him. But to go on with my story.

"'That's you, Trindon,' says the squire.

"'Yes, sir,' I answers. The keeper had 'old o' me tight.

"'You shall answer for this,' the ould gentleman says.

"I says nuthin', for it would only 'a' made matters wus.

"'Go home to you're wife, and we'll deal with you tomorrow,' he says.

"Off I goes, without being told twice, and tumbles into bed, where I lay a-tremblin'. The wife there," here he nodded to his spouse, who sat knitting at the other side of the fireplace, "she says, 'What is it?' and after a time I tells her. She bursts out cryin', and the kids heard 'er, so they sets up a-howlin', and we was that miserable that I cussed Jim and Bill and the rest of them.

"Next mornin' I did not go to work, but Bessie she goes off to see t' parson, leavin' me a-bed. You see, she had been in service at the vicarage, so she felt at home like in goin' up. Down comes parson and lets out at me somethin' cruel. 'Go up at once to the squire and ax his pardin',' he says. By gum, the old parson be a rum 'un. He got me at a disadvantage, bein' in bed, and he makes up for lost time, and my wife there, she stands by and puts in a word here and there. 'Get them trousers on,' says the parson, and he chucks my breeches on. Then he stands over me while I gets my clothes on.

"Well, I walks up to the hall humble like and axes to see the squire, and the footman he puts me in the gunroom and tells me to wait. 'Parson 'as sent me,' I says.

"'It's quod for you,' says footman in reply, grinnin'.

"Presently the old gentleman comes in. I salutes him very humble, but afore I could get a word in he lets out at me. He stormed and cussed somethin' shockin', but I keeps my eye on 'im, and when he gets too near I edges away, all the time a-axin' pardon, as the vicar had told me. When 'e cools down a bit I said as 'ow I 'ad been led astray, and for the future I was goin' to be respectable and go to church, and I did mean it at the time.

"The old squire he swears and growls a bit more, but in the end he agrees to make it up. You see he was a passionate man, and when in a tantrum he would say and do anything.

"'You will let me drink your 'ealth, squire, before I goes,' I says, 'just to show there's no ill feelin' on my part.'

"But before you could say Jack Robinson I was off, for the old gent 'e rushes at me like a mad bull, but when I got into the passage I got mixed, so I dives under a table and stays there awhile. He rushes past mad blind like. A minute afterwards I 'ears the squire's lady a-laughin', and presently he sings out, 'Trindon, go round to the servants' hall and get your beer.'

"That was the first time I was nabbed," added the old man.

"You still went on with your poaching, then?" I remarked.

"Yes, sir. You cannot break it off. It was ten years afore I was caught again. The old squire was just dead—God rest his soul!—and new squire gets another keeper, some man as 'ad been in the foreign wars with him as his servant. Bless your soul, he knew nothin' about birds, but he did about a gun, by gum he did.

"One night I was out with two others. We was busy with the net, when suddenly there was a bang, and I felt somethin' smartin' in my leg. 'What's up?' I says. 'It's the new keeper, that's what it is,' says one of my mates. Presently bang came the gun again from another direction, and my mates sings out that they are hit. We all drops down on the grass scared and waits, but there was nothin' more. It was a business gettin' home that night. I could scarcely walk for the pain in my leg. This shootin' was a new dodge and not fair at all, but the man didn't know his work, and he had been accustomed to go out when he liked and shoot Rooshins.

"Next day we 'ad to go to the doctor's to get the shot corns taken out of us. I had three in my leg—there are some there yet—and it was as black as that kettle, and the doctor took them out of my mates in handfuls.

"The new keeper, he be a cute 'un. He goes round to the surgery and gets all our names, and the policeman serves us with a summons, so this time we appears before the bench of county magistrates. Seein' that there was no other convictions against us, we got off with seven days each, for which we thanked the worships.

"As soon as I was out young squire and parson comes round to see me, and both of them sat and laughed as I told them all about it, and I tells them about the time when I hid under the table from the old gentleman, and they laughs more.

"'Didn't you carry my father to the church?' said young Captain Rowley—the squire's name was Rowley Eden.

"'Yes,' I says. 'God bless him, he wur a good 'un, your father, but he would 'a' killed me that day in the gunroom. Lucky I wur too quick for 'un. He had a 'ot temper, but a good heart.'

"The young man he sits quiet a time and then drops a tear, and the parson and he looks out of the winder. I did a bit of a cry, myself, too, for the old maister was as good as gold, takin' 'im all round.

"'You refused to take the sovereign that was given to each of the pallbearers,' said the young squire, swingin' round suddenly and facin' me. 'Why did you do that? Here, I wish you to have it,' and he puts down a golden sovereign on that table.

"'No offense, sir, nor disrespect,' I says. 'He wur a good squire; never a better lived. I was proud to do him the last sad duty, sir, and as we carried him to his last restin' place I would ha' given a good bit more'n that (meanin' the sovereign) just to 'a'telled him so before he died. So I just contented myself wi' sayin', 'Good old maister, good old squire,' only in a whisper like, with my cheek against the coffin, thinkin' that his spirit might somehow hear.'

"The young squire, he says softly and kindly, 'You don't bear me any ill will for sending you to jail?'

"'No, sir; I may be a poacher, but I am not ungrateful to the old stock up at the hall, sir,' I says. 'Many's the bird I have 'ad, which cost your father a pretty penny to rear, and seven days was cheap for all I done in my time.'

"Next day the young maister comes round, and offers me the post of under keeper, and I held that until my eyes failed me, but that wur not until I wur near seventy. And now, why, I wants for nowt, and often the young squire looks in, and sometimes he brings gentlemen from the hall just to have a crack, and sometimes they drops in, just as you 'a' done. The old woman and myself are just waitin' now until the Almighty has time to attend to us. Old squire's gone and nis lady, the vicar and his, and I often says to the missis our turn will soon be comin' round. Poachin' is the worst thing I have to answer for, and as both of us shared in the money we shall have to hear what will be said up there about it, eh, lass?" And the wife nodded her assent.—Golden Penny.

The Cleansing Ball.

The following is an excellent cleansing ball to prepare for use on clothes and woolen fabrics generally, says What to Eat:

Dissolve a bit of white soap the size of an egg in enough alcohol to cover it. Mix in the yolks of three eggs and a tablespoonful of oil of turpentine. Work in fuller's earth until it becomes stiff enough to form into balls and let them dry. When you wish to remove a stain, moisten the fabric with a little water, rub the ball well in, let it dry and brush off the powder.

There are three classes of stains these balls cannot remove—ink, iron rust and fruit stains. For ink, pour over milk, and as it becomes discolored absorb it with blotting paper. Then wash out well with tepid water and castile soap. If on white goods, lemon juice and common salt, often renewed and placed in the sun, are most efficient.

Felicia Dorothea Hemans.

When Felicia Dorothea Hemans was a little girl only thirteen years old, she had a volume of poems ready for publication. And very, very excellent poems they were, too, noble of thought and sweetly reverent. When she was nineteen years old, she married a military commander whose health had been shattered by the vicissitudes of camp life. He was irritable and trying, but this little girl, with her soul full of poetry and all the pure, lovely thought that can come to a good woman, went her unhappy way with courage and fortitude, writing verses that will live as a distinct part of English literature. What could be sweeter than her way of describing mother love?

There is none
In all this cold and hollow world, no fount
Of deep, strong, deathless love, save that within
A mother's heart.

A Needle Threader.

A machine which threads 1,000 needles a minute is at work in St. Gall, Switzerland. The purpose of the machine is to thread needles that are placed afterward in an embroidery loom for making Swiss or Hamburg lace. The device is almost automatic. It takes the needle from a hopper, carries it along and threads, ties the knot, cuts the thread off a uniform length, then carries the needle across an open space and sticks it in a rack. The work of threading these needles was formerly done by hand.

What Causes a Heavy Brain.

It is stated by an authority that the weight of a man's brain has nothing to do with his mental power. It is a question of climate, not of intellect. The colder the climate, the greater the size of the brain. The largest heads of all are those of the Chugatshes, who live very far north, and next come the heads of the Lapps.

HEART DISEASE.

SOME OF THE PECULIAR ASPECTS OF THIS DREAD MALADY.

Anger, Haste, Tobacco and Excess of All Kinds Forbidden to Its Unfortunate Possessor—The Fear of Death That It Entails.

A lawyer was talking with a friend when a sudden pallor came over his face. Thrusting his hand quickly into a waistcoat pocket he drew out a small phial, from which he poured two or three pellets into the palm of his hand and swallowed them. He was a stout, robust man, having every appearance of health. His friend exclaimed:

"Why, Jack, what's the matter? What are you taking those pills for?"

Jack smiled grimly.

"There is something the matter with my heart," he replied. "Now and then the machine gets out of order. Some of the wheels don't work or a cog slips. If at those periods I can get those little pellets of strychnine down quick enough, the difficulty is fixed up for the time being. But one of these days the poison will get in its work too late, and then"—

The elipsis was supplied by a look more eloquent than words.

"What is the nature of your heart affection? Have you been examined?"

"Yes. I presume that in 25 years I have been examined by 50 physicians. But no two of them ever agreed as to the exact nature of my disease."

"What are your symptoms?"

"The first and most prominent symptom is the fact that I am constantly made aware that I have a heart. Either it is beating so slowly that I can scarcely feel it or else it is racing like a Corliss engine at full speed. At night I can hear it creaking and straining like an old schooner off Point Judith in a storm. I have often smiled to myself in the dark hours just before dawn when I have been awakened by some frightful struggle on the part of my heart to keep up its natural rhythm to think how some strong man, a baseball player or an athlete, who never knew he had a heart, would act if such an attack came upon him suddenly."

"Oh, it is only a case of dyspepsia," said his friend. "I often have green feelings around the heart myself."

"Yes, that's what all your friends tell you," said the lawyer. "They want to cheer you up. It's a good thing that they do. Heart disease is naturally depressing. Consumptives always believe they are going to get well, but a man whose heart is affected is positive that he won't live a week."

"I suppose the condition of your heart prevents you from running?"

"Yes, and any form of severe physical exercise. I wouldn't run a block for $50,000. I am never in a hurry to catch a car. I usually take from two to three minutes to walk up the stairs of the elevated road."

"What effect does heart trouble have upon the mind?"

"Well, I suppose that depends upon the man. If he be of the highly imaginative type, the consciousness that his heart is diseased is always depressing. There are times when he is perfectly quiet or when the heart is gently stimulated by poisons, such as strychnine or alcohol, that he is comparatively free from distressing symptoms. But the knowledge that his heart is weak never wholly leaves him. It follows him everywhere. He dare not drink because he is afraid of overstimulation and consequent palpitation. He must not use tobacco because the weed has a depressing influence upon his life pump. He dares not permit his temper to get the better of his judgment. The heart is peculiarly susceptible to anger. Should a man grossly insult him he must grin and bear it, for both the passion of resentment and the physical effort required to place a blow would result in more injury to the man himself than to his enemy."

"I can see from your remarks that heart disease has some moral advantages."

"Yes; it certainly is a deterrent so far as alcohol, tobacco and anger are concerned. In fact, a heart physically bad is opposed to vice of any kind. It kicks up a row even if a man tries to do a little loving."

"Is there any pain?"

"Not in the sense that the word is generally understood. If your finger is caught in a door crack, there is a vivid sense of suffering, but no fear. With heart trouble there is no acute pain, but plenty of uneasiness and an awful sense of weakness. Anguish is the better word to describe it.

"I have been walking along a street, feeling in my normal condition, when a chasm has opened in the sidewalk a thousand feet deep, and I have stood on the brink trembling and sweating with apprehension. A feeling of such awful weakness and apprehension has come over me that I have been paralyzed, speechless. There was absolutely no physical indication that anything had happened, but the mental appreciation was frightfully appalling.

"At such times my heart had telegraphed my brain that it was tired. It had been pumping away in my breast ever since I was born, never stopping. And now, in some inscrutable manner, which the wisest of doctors can give no rational explanation of, it has stopped beating for the fraction of a second. But in that brief space of time all the organs of the body have been notified that something is the matter with the engine.

"You stand hesitating on the brink of another existence or annihilation, listening to see if the engine will resume its old time beat. Then is the time that your clammy fingers reach for your waistcoat pocket. In your haste you take a double dose. Slowly the noble organ responds to the stimulus, and you are saved for the time.

"I believe that I make no exaggeration in the statement that I have really to all intents and purposes died a thousand deaths. But such is the wonderful elasticity of the mind, so buoyant is hope, that after the most severe of these attacks it leaves no lasting impression. But I naturally try to get the little bottle out quick."—New York Sun.

Content Either Way.

"People are always content with their children," said Mr. Crusty.

"Yes," answered Mr. Dusty. "If a boy is diffident, they say he is naturally refined, and if he is boisterous they say he is sure to make his way in the world."—Washington Star.

The Wasp.

It is said that the male wasp does not sting. But as the male and female wasps wear the same kind of polonaise and look as much alike as twins the only way to distinguish their sex is to catch one. If it stings, it is a female; if not, it is a gentleman wasp.

ACHIEVEMENT.

Who says we fail? We prosper beyond dreams.
As architects of ruin we have no peers.
We thought to fire but farmsteads; we have lit
A flame less transient in the hearts of men.
We are ill at building? Yet have we at least
Destroyed to better purpose than we knew.
We have raised up heroes where we found but
hinds;
We have ravaged well; our rapine is not vain.
Redder from our red hoofprints the wild rose
Of freedom shall afresh hereafter spring,
And in our own despite are we the sires
Of liberty, as night begets the day.
Sufficient claim to memory this I deem,
Title enow, were other passport none.

BASUTO MARRIAGE CUSTOMS.

The Fatter the Bride the More Cattle She Costs.

Among the curious customs of the Basuto—customs which never change, but are handed down from generation to generation—are those connected with marriage. Suppose, good reader, you were a young Basuto and had been smitten by the sight of a pretty face (the Basuto idea of beauty is quantity; the lady must be fat—very fat—or she has no chance of being considered beautiful), you would be an aggressor against the laws of etiquette were you to speak to her, though you might look at her admiringly. Should the attraction prove irresistible, your proper course of procedure would be to hunt up some old lady friend—if a mutual friend so much the better—and confide to her your wish to settle down and marry that particular fair one, begging her to arrange everything for you as soon as possible. This she would gladly do, taking the first opportunity to call on the mother or friends of the wished for bride. The two ladies would then talk it over, discussing ways and means and your position in Basuto society. A large amount of tact is necessary, as the mother of the lady must be convinced that the marriage is in every way desirable. If your friend could convince her that such was the case, you might consider that fortune smiled on your cherished plans.

To secure to the lady of your choice the full rights of a wife you would pay over to your future father-in-law so many head of cattle, according to agreement, which is always based on the supposed value of the bride, her social position, personal appearance, height, size, beauty, etc. This transfer of cattle makes binding the marital contract, securing the woman from ill treatment at the hands of her husband; for, should he ill use her, she may return to her father or guardian, and so the man loses both his wife and his oxen. The parents of your wife would argue that the payment of cattle was the very least you could do to recompense them for all the terrible anxieties and expense that they had gone to in bringing up their daughter for you. Nor do the Basuto ever alter in this respect; even should they become Christians their chiefs compel the payment of cattle for their wives. Of course, herein lies the explanation of the joy manifested at the birth of a girl in a Basuto family. She is taken up and exhibited by her grandmother, who first slaps her and then kisses her, saying: "Luck! From this child come many herds of cattle!" The birth of a boy, on the other hand, is deplored, for he is regarded as an expensive and unprofitable trouble.

But to resume. Being now a son-in-law you must have a care how you deport yourself toward your father-in-law, as you will be expected to take a subservient position in regard to him. He may send for you at any hour of the day or night to do all kinds of menial work, and you may refuse only at your peril. He can require you to prepare skins; bray, dry and clean them for him; plow his fields, sow seeds and attend to his crops; in fact, you are virtually his servant. For the first year after your marriage you would not take your wife far away from her father's home, but would dwell with her in a kraal close to her parents. On the birth of the first child you would perform the ceremony of mokadee, which consists in presenting your mother-in-law with a certain number of cattle. Until this time you are not allowed to speak to your mother-in-law, or even to look at her; should you meet her unexpectedly, politeness and custom make it necessary that you should hide your head.

As a Basuto you need not limit your attentions to one wife, although you would distinguish your favorite lady as your "chief" wife, and it is her children who inherit, her son being known as the "great" son.—Chambers' Journal.

THE HARPOON GUN.

A Formidable Weapon That Is Used on the Blue Whale.

To pursue the blue whale successfully a boat is required that can steam 12 knots an hour and which is furnished with a formidable weapon known as the harpoon gun.

The harpoon gun is a ponderous piece of apparatus placed on a raised platform on the prow of the whaler and consists of a short, stout cannon, mounted on a broad pedestal, on which it can rotate horizontally. The gun has also a vertical motion and can be turned quickly in whatever direction the prow of the ship dominates. On the top of the gun are "sights" for aiming, just as in a rifle. Behind is the stock, which is grasped in the hand when firing the gun, and beneath it the trigger. The breech is a boxlike arrangement situated just where the stock is fastened to the gun proper. The gun is loaded in the ordinary way from the muzzle, and the harpoon is tightly rammed into it. To discharge the gun a small cartridge, with a wire attached, is first put into the breech. Pressure on the trigger causes a pull on the wire, which ignites the cartridge and discharges the gun simultaneously.

The harpoon is about six feet in length and very massive. It consists essentially of three parts—the anterior conical portion, the movable barbs and the shaft. The anterior conical piece is an explosive shell filled with gunpowder and screws on to the rest of the harpoon. The explosive shell is fired with a time fuse after the harpoon is imbedded in the whale.

Behind the explosive conical piece lie the four barbs, situated at right angles to each other. These barbs are always bound down tightly together with thin rope when the harpoon is going to be discharged. As the harpoon penetrates the flesh of the whale this rope gets brushed off the barbs and in doing so pulls a wire, which sets fire to the fuse and it explodes the shell in a few seconds. The shell gets blown to pieces and makes a terrific wound in the whale's interior, and the explosion causes the four barbs to stand out so that it becomes impossible for the harpoon to be withdrawn. The rest of the harpoon consists of a long shaft with a slot in it, in which a ring moves freely with the rope attached.

If the whale is at all well hit, the harpoon gets imbedded about five feet, and unless the rope breaks the animal cannot escape. The rope, which is a very stout one, passes from the harpoon on to a round tray in front of the gun, where a coil of 50 feet or so lies. It then passes backward over a pulley on to the drum of a double steam winch supplied with an immensely powerful brake.

Taken all in all the harpoon gun is about the most exquisitely cruel instrument of destruction devised by the ingenuity of man! But it is only when one sees and knows the prodigious brute it is meant to destroy that one realizes that it is nevertheless none too effective. The gun is never discharged at a greater distance than 50 feet and seldom, indeed, at more than 30 from the whale. To be able to get so near requires not only very fine seamanship, but a very intimate knowledge of the habits of the animal.—Pearson's Magazine.

An Impractical Suggestion.

A Child's Cry

Pierces the mother's heart like a sword. Often the mother who would do everything for the little one she loves, is utterly impotent to help and finds no help in physicians. That was the case with Mrs. Duncan, whose little one was almost blind with scrofula. But fortunately she was led to use Dr. Pierce's Golden Medical Discovery and so cured the child without resorting to a painful operation.

The great blood-purifying properties of Dr. Pierce's Golden Medical Discovery have been proved over and over again in cases of scrofula, eczema, eruptions and other diseases which are caused by an impure condition of the blood. It entirely eradicates the poisons which feed disease, and builds up the body with sound, healthy flesh.

"My little daughter became afflicted with scrofula, which affected her eyes," writes Mrs. Agnes L. Duncan, of Mansfield, Sebastian Co., Ark. "She could not bear the light for over a year. We tried to cure her eyes, but nothing did any good. We had our home physician and he advised us to take her to an oculist, as her eyelids would have to be 'scraped.' They had become so thick he thought she would never recover her sight. As there was no one else to whom we could apply my heart sank within me. I went to your 'Common Sense Medical Adviser,' read your treatment on scrofula, getting the properties of medicines there advised. With five bottles of 'Golden Medical Discovery' I have entirely cured my child.

"Hoping this will be of some use to you and a blessing to other sufferers, with heartfelt thanks, I remain."

Doctor Pierce's Pleasant Pellets are an excellent laxative for children. They are easy to take and thorough in action.

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use. It is for sale by all druggists.

A WORTHY SUCCESSOR.

"SOMETHING NEW UNDER THE SUN."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old an experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderfull remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. B 788, EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.
